Accelerating Innovations in Digital Health: The ARC Global Ecosystem

Eyal Zimlichman, MD, MSc (MHCM)
Deputy Director General, Chief Medical Officer and Chief Innovation Officer, Sheba Medical Center

Date: Friday, March 13th  Time: 8:00am-9:00am  Location: H103

Objectives:
- Describe strategies and infrastructure needed to accomplish an ecosystem supporting fast track innovation around data
- Discuss collaborative models that allow different provider organizations to co-innovate around data and digital health
- Provide examples of digital health applications that enhance quality, patient safety, efficiency and patient centered care.
