Shahdalem: Clinical pathways are designed to standardize care of patients based on guidelines and outcome measures of medical professionals at the University of Colorado Medical Center (UCMC). Clinical pathways are not meant to replace the judgment and expertise of health care professionals. Clinical pathways may not replace the most recent evidence available. UCMC is not responsible for any errors or omissions within the pathway or for any patient outcomes when a clinician chooses the pathway during patient care.

Pathway Contacts: Jennifer Reano, MD & Sacitin Shah
