**Disclaimer:** Clinical pathways are designed to standardize care of patients based on publicly available medical evidence and/or consensus of medical professionals at The University of Chicago Medical Center (UCM). Clinical pathways are not meant to replace clinical judgment and patients should be managed accordingly, based on their individual needs. The application does not provide medical advice, does not make diagnostic, treatment, or other clinical decisions or judgments, and is not a substitute for the competent analysis and professional judgment of health care professionals. Clinical pathways may not represent the most recent evidence available. UCM is not responsible for any errors or omissions within the pathway or for any patient outcomes where a clinician consulted the pathway during patient care.
