Patient Cleared of COVID-19 PU Status

Follow the flowchart to determine the following:
- Special Respiratory Precautions (SRP)
- Contact Precautions
- PU enrollment status

Precautions can be discontinued if the patient has any of the following:
- Results of the COVID-19 serology positive
- Active orders for isolation or in-process COVID-19 Qualitative PCR test

There may be situations where the contact for COVID-19 serology test is not available in the clinical setting. In this case, the staff should remain on Special Respiratory Precautions and Contact Isolation.

For assistance, call the COVID Resource Team (1-800-202-6010).

Patients don’t have to be cleared to be discharged home.
